

Learning Project WEEK 6 - Food

Age Range: Y5/6

Weekly Maths Tasks (Aim to do 1 per day)	Weekly Reading Tasks (Aim to do 1 per day)
<ul style="list-style-type: none"> • Get your child to play on Times Table Rockstars. • Ask your child to show everything they know about factors and multiples on a piece of paper. This could be pictures, diagrams, explanations, methods etc. Get them to be as creative as they want to be. • Get your child to play these games on https://www.topmarks.co.uk/maths-games/multiples-and-factors • Play on https://www.topmarks.co.uk/maths-games/hit-the-button - focus on times tables, division facts and squared numbers. • Look at a recipe with your child. Ask them how much of each ingredient would be needed if the amount of people it was cooked for was halved, doubled, tripled etc. Talk to them about what maths they might need to think about to do this. • Arithmetic papers https://www.twinkl.co.uk/ on Twinkl. First sign in (see bottom of learning project for information). Once you have signed in, you simply type in the search bar 'Year 5 arithmetic papers or Year 6 arithmetic papers and you will be given several papers to access plus mark scheme. • Get your child to work on their reasoning and problem solving by practising past SATs questions that are broken down into topic areas and have videos linked to them that can be watched if needed. As these are older papers these are suitable for both years 5 and 6. Click on one of the topic areas listed to gain access to the questions. 	<ul style="list-style-type: none"> • Ask your child to read a chapter from their home reading book or a book that they have borrowed from the library. • Following this, ask your child to create a list of questions to interview the main character. They can test out the questions by answering in role as the character. Encourage your child to think about the traits of the character and how this will influence the answers. • Encourage your child to note down any unfamiliar words from the chapter they have read. Explore the meanings of these words by using a dictionary, reading around the sentence or using print conventions. • Why not ask your child to read to you. Get them to identify somewhere in the home that they don't usually read and listen to them read a chapter or two. Your child may wish to ask you questions about what was read. • https://www.pobble365.com/on-the-prowl Look at the picture and answer the questions below it titled question time! If this picture came straight from a book, what would the title of the book be called? Create your own front cover and title for the book.
Weekly Spelling Tasks (Aim to do 1 per day)	Weekly Writing Tasks (Aim to do 1 per day)
<ul style="list-style-type: none"> • Encourage your child to practise the Year 5/ 6 Common Exception Words (see list) • Then ask your child to choose 5 Common Exception words. They can then write a synonym, antonym, the meaning and an example of how to use the word in a sentence. • Practise spellings on Spelling Frame. • Most rap songs contain a rhyme scheme. Your child can create a word bank of rhyming words associated with food and its taste. They will then use this to help them with their rap writing task. • Get your child to proofread their writing from the day. They can use a dictionary to check the spelling of any words that they found challenging. This will also enable them to check that the meaning of the word is suitable for the sentence. 	<ul style="list-style-type: none"> • Your child can write a recipe to make a healthier option for making a pizza. Think about which ingredients they could switch so that this delicious treat is better for them. • How does the human digestive system work? Get your child to write an explanation describing this and include diagrams to represent their explanations. Get your child to use the internet first to gather all the information they need to write a detailed explanation on the human digestive system. • There are lots of different types of food available for people to eat in the UK. Ask your child to write a rap about food. This could be about a particular food group or their favourite meal. • Fast food establishments should not be within one mile of schools. Do you agree/disagree with the above statement? Your child will debate both sides of the argument. Write a balanced argument on this topic. Remember: Introductory paragraph, 2 paragraphs for, two

paragraphs against and a concluding paragraph.

- **Story Task:** Use the picture provided from the reading task (on the prowl) <https://www.pobble365.com/on-the-prowl> and write an opening to a story of your choice. This story can be a fantasy, adventure or sci fi (it is up to you) etc... Remember: you need to describe the setting and characters at the beginning of your story.

Learning Project - to be done throughout the week

The project this week aims to provide opportunities for your child to learn more about food. Learning may focus on where different foods originate from, what makes a healthy meal, opportunities to cook etc.

Which Foods Contain the Most Sugar? Your child must choose a selection of food items from the food cupboard, fridge and freezer - 10 items will be enough. They will then identify the nutritional label and record the amount of sugar that each food contains. Once they have gathered the information, ask them to record the sugar contents on a bar chart and evaluate the data. How will their findings change what they eat?

Plough to Plate- Ask your child to choose a food from any of the 6 main food groups. They will then locate the country/countries of origin on a world map and work out how far the food item travels to get to their plate. Following this, ask them to sketch a diagram detailing the journey the food has taken and add captions and timeframes (could be set out like a comic strip). What could we do to reduce how many miles our food travels?

Creative Creations- Cadburys are launching a new chocolate bar. Your child will create a criteria for Cadbury chocolate packaging by researching current Cadbury products. Once they have a criteria, they will use this to design their own packaging (they may want to do this on a computer if they have access to one). Finally, ask them to gather some feedback from the family about the design. They will use the feedback to adapt and refine the design. After creating the chocolate bar, your child can then compose a jingle that could be used in an advert. This could be created by using household items such as pots and pans or by using these virtual [instruments](#).

Come Dine with Me - Your child is responsible for creating a three course meal for four family members. They need to create the recipes for a starter, main meal and dessert. Ask them to think about what ingredients they will need to make their recipe and write a shopping list of items. They will then research how much the ingredients will cost using a supermarket website of their choice. Where is the most cost effective place to buy the ingredients? They could then test out a recipe by making it for dinner that evening. Family members may even wish to score each course!

A Balanced Diet - Ask your child to think about the food a toddler might eat compared to an adult athlete. They will then choose five different types of people (e.g. a child, teenager, athlete, teacher etc.) and draw a plate of food that will ensure they are eating a healthy, balanced diet. Underneath each plate, they must justify why they have chosen these foods. Get them to think about the calorie intake each of these individuals might need. Can some people have more of one type of food group? If yes, why can they?

Additional learning resources parents may wish to engage with

[Classroom Secrets Learning Packs](#) - These packs are split into different year groups and include activities linked to reading, writing, maths and practical ideas you can do around the home.

[Twinkl](#) - to access these resources click on the link and sign up using your own email address and creating your own password. Use the offer code UKTWINKLHELPS.

[Headteacherchat](#) - This is a blog that has links to various learning platforms. Lots of these are free to access.
