

St Joseph's Catholic Primary School

At St Joseph's we work, learn and grow together guided by Jesus' teachings

CRC Article 29(goals of education)

Education must develop every child's personality, talents and abilities to the full. It must encourage the child's respect for human rights, as well as respect for their parents, their own and other cultures, and the environment.

First Aid Policy

1. Aims The aims of our first aid policy are to:

- Ensure the health and safety of all staff, pupils and visitors
- Ensure that staff and governors are aware of their responsibilities with regards to health and safety
- Provide a framework for responding to an incident and recording and reporting the outcomes

2. Legislation and guidance

This policy is based on the Statutory Framework for the Early Years Foundation Stage, advice from the Department for Education on first aid in schools and health and safety in schools, and the following legislation:

- The Health and Safety (First Aid) Regulations 1981, which state that employers must provide adequate and appropriate equipment and facilities to enable first aid to be administered to employees, and qualified first aid personnel
- The Management of Health and Safety at Work Regulations 1992, which require employers to make an assessment of the risks to the health and safety of their employees

- The Management of Health and Safety at Work Regulations 1999, which require employers to carry out risk assessments, make arrangements to implement necessary measures, and arrange for appropriate information and training
- The Reporting of Injuries, Diseases and Dangerous Occurrences Regulations (RIDDOR) 2013, which state that some accidents must be reported to the Health and Safety Executive (HSE), and set out the timeframe for this and how long records of such accidents must be kept
- Social Security (Claims and Payments) Regulations 1979, which set out rules on the retention of accident records
- The Education (Independent School Standards) Regulations 2014, which require that suitable space is provided to cater for the medical and therapy needs of pupils .

Roles and responsibilities

In our school, with Early Years Foundation Stage provision, at least one person who has a current paediatric first aid certificate must be always on the premises. In all settings – and dependent upon an assessment of first aid needs – we will have a sufficient number of suitably trained first aiders to care for employees in case they are injured at work.

Appointed person(s) and first aiders

The school's appointed person is Munni Asrar and is supported by first aid qualified staff. They are responsible for:

- Ensuring a qualified person takes charge when someone is injured or becomes ill
- Ensuring there is an adequate supply of medical materials in first aid kits, and replenishing the contents of these kits
- Ensuring that an ambulance or other professional medical help is summoned when appropriate First aiders are trained and qualified to carry out the role and are responsible for:
 - Acting as first responders to any incidents; they will assess the situation where there is an injured or ill person, and provide immediate and appropriate treatment

- Sending pupils home to recover, where necessary, in consultation with the most senior member of staff
- Filling in an accident report on the same day, or as soon as is reasonably practicable, after an incident

The governing board

The governing body has ultimate responsibility for health and safety matters in the school. The governing body delegates operational matters and day-to-day tasks to the headteacher and staff members.

The headteacher

The headteacher is responsible for the implementation of this policy, including:

- Ensuring that an appropriate number of first aiders are present in the school at all times
- Ensuring that first aiders have an appropriate qualification, keep training up to date and remain competent to perform their role
- Ensuring all staff are aware of first aid procedures
- Ensuring appropriate risk assessments are completed and appropriate measures are put in place
- Undertaking, or ensuring that managers undertake, risk assessments, as appropriate, and that appropriate measures are put in place
- Ensuring that adequate space is available for catering to the medical needs of pupils
- Reporting specified incidents to the HSE when necessary

Staff School staff are responsible for:

- Ensuring they follow first aid procedures
- Ensuring they know who the first aiders in school are
- Completing accident forms
- Informing the headteacher of any specific health conditions or first aid needs

First aid procedures

In-school procedures In the event of an accident resulting in injury:

- The closest member of staff present will assess the seriousness of the injury and seek the assistance of a qualified first aider, if appropriate, who will provide the required first aid treatment
- The first aider, if called, will assess the injury, and decide if further assistance is needed from a colleague or the emergency services. They will remain on scene until help arrives
- The first aider will also decide whether the injured person should be moved or placed in a recovery position
- If the first aider judges that a pupil is too unwell to remain in school, parents will be contacted and asked to collect their child. Upon their arrival, the first aider will recommend next steps to the parents
- If emergency services are called, a member of staff team will contact parents immediately
- The relevant member of staff will complete an accident report form on the same day or as soon as is reasonably practical after an incident resulting in an injury

Off-site procedures

When taking pupils off the school premises, staff will ensure they always have the following:

- A mobile phone
- A portable first aid kit
- Information about the specific medical needs of pupils
- Parents' contact details

Risk assessments will be completed by the trip leader prior to any educational visit that necessitates taking pupils off school premises. For primary schools, there will always be at least one first aider with a current paediatric first aid certificate on school trips and visits, as required by the statutory framework for the Early Years Foundation Stage..

First aid equipment

A typical first aid kit in our school will include the following:

- Regular and large bandages
- Adhesive tape
- Disposable gloves
- Antiseptic wipes
- Plasters of assorted sizes

No medication is kept in first aid kits.

First aid kits are stored in:

- Main office
- classrooms

Record-keeping and reporting

First aid and accident record book

- An accident form will be completed by the relevant member of staff on the same day or as soon as possible after an incident resulting in an injury
- As much detail as possible should be supplied when reporting an accident.
- Records held in the first aid and accident book will be retained by the school for a minimum of 3 years, in accordance with regulation 25 of the Social Security (Claims and Payments) Regulations 1979, and then securely disposed of.

Reporting to the HSE

The relevant member of staff will keep a record of any accident which results in a reportable injury, disease, or dangerous occurrence as defined in the RIDDOR 2013 legislation (regulations 4, 5, 6 and 7). The relevant member of staff will report these to the Health and Safety Executive as soon as is reasonably practicable and in any event within 10 days of the incident.

Reportable injuries, diseases or dangerous occurrences include:

- Death
- Specified injuries, which are: Fractures, other than to fingers, thumbs and toes, Amputations, any injury likely to lead to permanent loss of sight or reduction in sight, any crush injury to the head or torso causing damage to the brain or internal organs, serious burns (including scalding), any scalping

requiring hospital treatment, any loss of consciousness caused by head injury or asphyxia, any other injury arising from working in an enclosed space which leads to hypothermia or heat-induced illness, or requires resuscitation or admittance to hospital for more than 24 hours

- Injuries where an employee is away from work or unable to perform their normal work duties for more than 7 consecutive days (not including the day of the incident)
- Where an accident leads to someone being taken to hospital
- Near-miss events that do not result in an injury but could have done.

Notifying parents

For primary schools the relevant member of staff will inform parents of any accident or injury sustained by a pupil, and any first aid treatment given, on the same day, or as soon as reasonably practicable.

Reporting to Ofsted and child protection agencies The relevant member of staff will notify Ofsted of any serious accident, illness or injury to, or death of, a pupil while in the school's care. This will happen as soon as is reasonably practicable, and no later than 14 days after the incident. The relevant member of staff will also notify local child protection agencies of any serious accident or injury to, or the death of, a pupil while in the school's care.

Training All school staff are able to undertake first aid training if they would like to. All first aiders must have completed a training course and must hold a valid certificate of competence to show this. The school will keep a register of all trained first aiders, what training they have received and when this is valid until. Staff are encouraged to renew their first aid training when it is no longer valid. For primary schools, at all times, at least 1 staff member will have a current paediatric first aid (PFA) certificate which meets the requirements set out in the Early Years Foundation Stage statutory framework and is updated at least every 3 years.

Monitoring arrangements

This policy will be reviewed by the relevant member of staff annually or as appropriate. At every review, the policy will be approved by the headteacher and the governing body.
